Preface

*Information available
as of 15 March 1985
was used in this report*

The statistics in this handbook update and supersede those in our previous publications. Values of military agreements and deliveries are based on Soviet trade prices, which are quoted in rubles and then converted into US dollars.

25X1

25X1

The term *Communist countries* refers to: the USSR, China, Bulgaria, Czechoslovakia, East Germany, Hungary, Poland, Romania, Cuba, North Korea, and Yugoslavia.

25X1

The term *less developed countries* includes: (1) all countries of Africa except the Republic of South Africa; (2) all countries of East Asia except Hong Kong and Japan; (3) Malta, Portugal, and Spain in Europe; (4) all countries in Latin America except Cuba; and (5) all countries in the Middle East and South Asia except Israel. Although Cambodia, Laos, and Vietnam have been Communist countries since 1975, data prior to this date are included in this compendium for historical purposes.

25X1

Assistance is considered to have been extended when accords are initialed and constitute a formal declaration of intent. For economic aid, credits with repayment terms of five years or more are included. Where terms are known, the credits are designated as "trade credits" if amortization is less than 10 years. For military transactions, all sales are included—whether for cash or provided under credits or grants. The term *drawings* refers to the delivery of goods or the use of services.

25X1

As to individual table entries, the term *NEGL* refers to a value of less than \$500,000; *NA* indicates an agreement was signed, but the value was not known; two dots (.) indicate we have no information and presume the value is 0.

a. Values of military agreements and deliveries are based on Communist donor export prices and are adjusted for changes in the dollar value of the currencies denominated in foreign trade transactions. In cases where actual values are not known, Soviet export prices of similar equipment are used as surrogates. As a result of a new study -- completed in early 1980 -- showing a marked, across-the-board rise in export prices for Soviet equipment sold to LDCs since 1973, the figures for 1974-79 were revalued in the 1979 publication to reflect the higher export charges and new estimates of sales volume.

b. Excluding Cuban, North Korean and Yugoslav agreements totaling \$6.9 billion and deliveries totaling \$5.4 billion.

c. Of this total \$68 million was delivered on Soviet account under the Soviet-Libyan arms accord of 1974.

d. Excluding \$151 million of Soviet commitments and \$1 million of Romanian commitments to Angola, both made before independence in November 1975. The USSR recommitted \$59 million of the original amount in March 1976 when the Neto regime assumed power.

a. When actual agreement values are not reported, minimum totals are derived by costing (at current US dollar list prices) the equipment ordered under the agreement; where equipment details are lacking, agreement estimates are based on available information on the magnitude of the contract. The estimated value does not include credits for construction of military installations and airfields, which in some cases may be carried under economic assistance arrangements. The values for most agreements signed after 1971 have been revised periodically to reflect new price and volume information, and the changed dollar value of foreign denominated trade currencies.

b. Cash payments include downpayments required at contract signing or cash for commercial sales. These numbers are minimum estimates. Since October 1973, a large portion of middle Eastern arms supplies are being financed by Arab oil producers.

c. Includes outright gifts as well as discounts from list prices.

d. Minimum estimate.

e. Excluded are \$1 million of Romanian aid and \$151 million of Soviet aid committed in 1975 prior to Angola's independence. Of the 1975 Soviet agreements, \$59 million was recommitted after independence in 1976.

Communist Military Agreements Concluded With LDCs, 1955-84 (Continued)

- f. Excludes more than \$9 million worth of Chinese ground forces ordnance and other military equipment received by Cambodia from December 1966 to July 1969 as a fee for handling transshipment of arms to the North Vietnamese through Sihanoukville. Cambodia also received economic aid of \$1.3 million from Czechoslovakia for the construction of an ammunition plant.
- g. Excluding \$8 million in Soviet aid that is not expected to be drawn.
- h. Ghana also received credits valued at \$13 million for construction of an ammunition plant and an airfield from Czechoslovakia and the USSR, respectively.
- i. Agreement for MIG-21 FI production in India is dated at the time a license for manufacture was issued. The credit portion covers license and imports of jigs, tools, and fixtures; the downpayment portion covers imports of aircraft components and raw materials for assembly and production. The value of agreement for production of Atoll air-to-air missiles has not been ascertained.
- j. Agreement for MIG-21 M production in India is dated at the time a license for manufacture was issued.
- k. Excluding about \$225 million in military aid extended in 1963 and 1964 (\$175 million in credits and \$50 million in discounts) which Indonesia has not drawn at the time of the abortive coup in 1965 and which were later cancelled by the USSR.
- l. North Yemen also received \$5 million from the USSR for the construction of an airfield.

^a Numbers are rounded to the nearest 5. Most of the estimates are based on scholarship awards.

^b Data are through 1974 because Communist governments were formed in 1975.

^c Data represent students from the United Arab Emirates and Bahrain before those countries became independent in December 1971.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 23 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

NORTH AFRICA: SUMMARY OF INFORMATION ON COMMUNIST ECONOMIC CREDITS AND GRANTS
TO LESS DEVELOPED COUNTRIES BY DATE EXTENDED, 1954 - DECEMBER 1984

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

(A) The amount extended reflects an adjustment for downpayments.

(B) The amount extended is estimated.

(C) The amount extended is not known.

(D) Includes \$10.0 million of credits originally extended in 1975.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 24 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

- (A) The amount extended is estimated.
- (B) The amount extended is not known.
- (C) The amount extended reflects an adjustment for downpayments.
- (D) A 1971 protocol to the June 1961 agreement turned \$13.8 million of the \$44.4 million project aid into a grant and \$1.3 million of a \$7.8 million commodity credit into a grant.
- (E) For Zanzibar only.
- (F) Includes \$2.2 million for state bank.
- (G) The agreement to extend credit for building the railroad was signed in September 1967, but the amount of the credit was not agreed to until July 1970 after surveys had been completed. Drawings on the credit are retroactive to 1968.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 25 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, C - completed, PC - project cancelled, and CC - construction completed by Less Developed Country or Western Country.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified by a double () preceding the entry.

(A) The amount extended reflects an adjustment for downpayments.

(B) Credit of \$84.0 million extended in 1961 reduced the level of drawings to reflect Burmese takeover following expulsion of Chinese in 1968. The undrawn portion was re-extended in 1971.

TABLE 25

EAST ASIA: SUMMARY OF INFORMATION ON COMMUNIST ECONOMIC CREDITS AND GRANTS

- (C) The credit of \$30.0 million extended in 1961, the credit of \$50.0 million, and the grant of \$16.0 million extended in September 1965 are reduced to the level of drawings at the time of the abortive coup in 1965 when the Chinese were expelled and their work on projects cancelled.
- (D) The 1956 credit and protocol of 1959 were reduced from \$100 million and \$5.6 million credits to amount drawn at the time the credits expired in 1964. The 1960 credit of \$210 million, reduced from the original \$350 million by transfer of \$40 million to the military account, also was reduced to reflect drawings at the time credit expired in 1967.
- (E) During 1975, Kampuchea and Laos announced the formation of Communist governments and their relations with other Communist countries will not be detailed in this publication.
- (F) Includes only aid extended after formation of the Laos coalition government under the Geneva accord of July 1962. Undelivered commitments of \$2.2 million grant and \$3.9 million credits extended by the USSR in 1962 have been deleted. A line of credit for \$4.0 million extended by Communist China in 1962 but never drawn also has been deleted.
- (G) Minimum estimated value.
- (H) The amount extended is not known.

TABLE 27

LATIN AMERICA: SUMMARY OF INFORMATION ON COMMUNIST ECONOMIC CREDITS AND GRANTS
TO LESS DEVELOPED COUNTRIES BY DATE EXTENDED, 1954 - DECEMBER 1984

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 27 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, C - completed, and SS - survey suspended.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

- (A) The amount extended reflects an adjustment for downpayments.
- (B) Credit is openended. Additional amounts will be added as contracts are signed.
- (C) Soviet credit extensions for the Salto Grande project are split 60 percent to Argentina and 40 percent to Uruguay and repayment responsibility is divided in this manner.
- (D) Minimum estimated value.
- (E) The amount extended is not known.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 28 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.

This aid comes under framework agreements which call for long-term economic cooperation without identifying specific projects or the value of assistance to be provided. With few exceptions, these agreements appear to be open-ended. As credits are assigned to specific projects under the framework agreements, they will be listed separately by date and will be identified with a double asterisk () preceding the entry.

TABLE 28

MIDDLE EAST: SUMMARY OF INFORMATION ON COMMUNIST ECONOMIC CREDITS AND GRANTS TO LESS DEVELOPED COUNTRIES BY DATE EXTENDED, 1954 - DECEMBER 1984

- (A) The amount extended reflects an adjustment for downpayments.
- (B) In 1980 the 1964 credit was reduced to the level of drawings, and the credit, originally denominated in Swiss francs, was reinstated at the new dollar-frank rate.
- (C) Credit originally for \$225.0 million reduced by \$9.0 million, the amount saved during construction.
- (D) Includes \$44.4 million of credits originally extended in 1963, but incorporated in the line of credit in 1964.
- (E) Minimum estimated value.
- (F) The amount extended is not known.
- (G) Credit, originally for \$84.0 million, was for delivery of 33 ships; it was reduced to the amount delivered by 1969 because the contract was believed to have been cancelled. This amount reflects an adjustment for down payment.
- (H) A \$20 million agreement signed in 1972 is believed to include a \$10 million credit extended in 1967 for similar projects.
- (I) Subsumed \$5.5 million credit extended in 1969.
- (J) Extended to replace \$25 million 1969 credit that expired in 1975.
- (K) Extended to replace \$15 million 1962 credit that expired in 1964.
- (L) Value of individual projects will be determined by separate agreements.

NOTE: Credits on which repayment terms are known to be less concessionary than those normally associated with aid (25 percent grant element) have been designated as trade credits. We have included in this category those credits repayable in a minimum of five years (which do not meet the aid criteria) and are clearly designed to promote trade.

* Symbols used in Table 29 have the following meanings: S - under survey, UC - under construction or being implemented, CS - construction suspended, and C - completed.
